# KUNAL MANGLA

## Functional ERP Consultant

Faridabad, Haryana • kunalmangla447@gmail.com • 91- 7827169606

**PROFESSIONAL SUMMARY**

---

**Results-driven Computer Science graduate with** 2 years of focused experience **in technical implementation and full-stack development, specializing in** AI/Machine Learning (AI-ML)**. Proficient in** Python, React.js**, and** SQL**. Proven ability to architect secure RESTful APIs, integrate complex systems (including ERP and Barcode management), and deploy** AI models for personalized recommendations **in live applications. Seeking a challenging Developer, IT Specialist, or** AI Generalist **role where technical expertise and functional analysis can drive high-impact solutions.**

**PROFESSIONAL EXPERIENCE**

---

**KIRAN CONSULTANTS PRIVATE LIMITED** **Noida, Uttar Pradesh**
**ERP Functional Consultant** **Aug 2025 -Present**

- Successfully managed end-to-end configuration and testing of **Material Management** (MM) and **Inventory Control** modules, resulting in 99.5% inventory data accuracy.
- Implemented a real-time **Barcode Integration** system to track raw material, WIP, and finished goods movement, optimizing logistics workflows.
- Configured complex **multi-stage Bills of Materials (BOM)** with unique AR number tracking to ensure granular batch traceability, meeting rigorous compliance standards for the pharmaceutical industry.
- Collaborated with Finance teams to ensure accurate mapping of Inventory transactions (MM) to the **General Ledger (GL)**, providing validated data for cost of goods sold and balance sheet reporting.
- Spearheaded the creation, validation, and maintenance of critical **Master Data** across materials and vendors, serving as the foundation for accurate procurement and financial postings.
- Developed comprehensive **Standard Operating Procedures (SOPs)** and delivered user training to cross-functional teams, significantly improving user adoption and data entry discipline within the system.

**ABACUS DESK IT SOLUTIONS** **Delhi, New Delhi**
**Marketing Automation Analyst** **Feb 2025-July 2025**

- Executed targeted lead generation campaigns and tracked core KPIs (open rates, conversion rates) using professional tools like LinkedIn Sales Navigator.
- Developed strong business communication, CRM data handling, and segmentation skills, aligning digital messaging with B2B digital products.
- Collaborated with marketing and sales teams to align messaging with digital products like **Sales Force Automation** and **Dealer Management Systems**.
- Created detailed outreach documentation, reports, and execution timelines.
- Strengthened skills in **CRM data handling**, segmentation, and business communication.

**BRAWN LABORATORIES LIMITED** **Faridabad, Haryana**
**Technical Implementation Executive** **Feb 2024-Feb 2025**

• Executed full lifecycle functional testing and system configuration for ERP modules (Production, Inventory, Quality Control), ensuring **100% alignment with manufacturing SOPs**.

• Configured multi-stage **Bills of Materials (BOM)** and managed master data for critical raw materials, packaging, and finished goods, establishing **AR number tracking for batch traceability**.

• Integrated **barcode management** systems with the core platform to enable **real-time stock movement** and improve labelling accuracy across inventory.

• Provided cross-functional **user training and support** for over 50 users, resulting in documented **efficiency gains** and a reduction in manual data entry errors.

## EDUCATION
